

## 2009 Amsterdam Conference on the Human Dimensions of Global Environmental Change

### 'Earth System Governance: People, Places and the Planet'

Guidelines for Full Papers

#### **Deadline**

The deadline for submission of full papers is 15 November. Please submit your paper by email to [ac2009@ivm.vu.nl](mailto:ac2009@ivm.vu.nl) (as word or PDF document). We will make all papers available online at the conference website before the start of the 2009 Amsterdam Conference on the Human Dimensions of Global Environmental Change. Hence, we would greatly appreciate if you could meet this deadline.

#### **Format**

Papers should be limited to thirty pages. The paper should include a short abstract and may acknowledge assistance, including sources of financial aid. Reference should be made to the 2009 Amsterdam Conference and the conference stream your paper was presented in. For more information on the six themes of the conference that are drawn from the science plan of the Earth System Governance Project, please visit the conference website: [www.ac2009.earthsystemgovernance.org](http://www.ac2009.earthsystemgovernance.org). More information on the IHDP Earth System Governance Project, including its new Science and Implementation Plan for download, can be found at [www.earthsystemgovernance.org](http://www.earthsystemgovernance.org).

Since some of the papers may be published later in different books or journals, no detailed citation rules or formatting requirements are given. We suggest as text font 12 pt Times New Roman or comparable font with 1.5 line-spacing throughout. Please check English grammar and spelling carefully before submitting your paper.
