

Conference Schedule

2019 Mexico Conference on Earth System Governance

Oaxaca, Mexico, 6-8 November 2019

Version of 16 September 2019

The conference is hosted by the National Autonomous University of Mexico, together with the Earth System Governance Project.

The 2019 Mexico Conference will be organized around the five analytical lenses structuring the new earth system governance research agenda, as captured in the 2018 Science and Implementation Plan; and a sixth stream focusing on specific issues and challenges relevant to the Latin American region.

This conference schedule is structured along the six thematic streams of the conference and grouped in panels.

Please note that the version is **preliminary**, time-slots for presentation are still being assigned to specific panels, and that not yet all presenters have registered for the conference. Updated versions of this conference schedule will be made available on the [conference website](#) frequently.

Conference Co-Hosts:

Tuesday, 5 November 2019											
										<i>San Pablo 16:00-19:00</i>	
Early Registration
